Global pandemic 2020  
*#togetherathome*

The disease caused by the new Coronavirus is called COVID-19 ('CO' stands for corona, 'VI' for virus, 'D' for disease and '19' indicates the year in which it occurred).

Hand washing and disinfection are the key to preventing infection. To stay at home slows down the transmission speed and save your life.

**01**  
Wash  
your hands

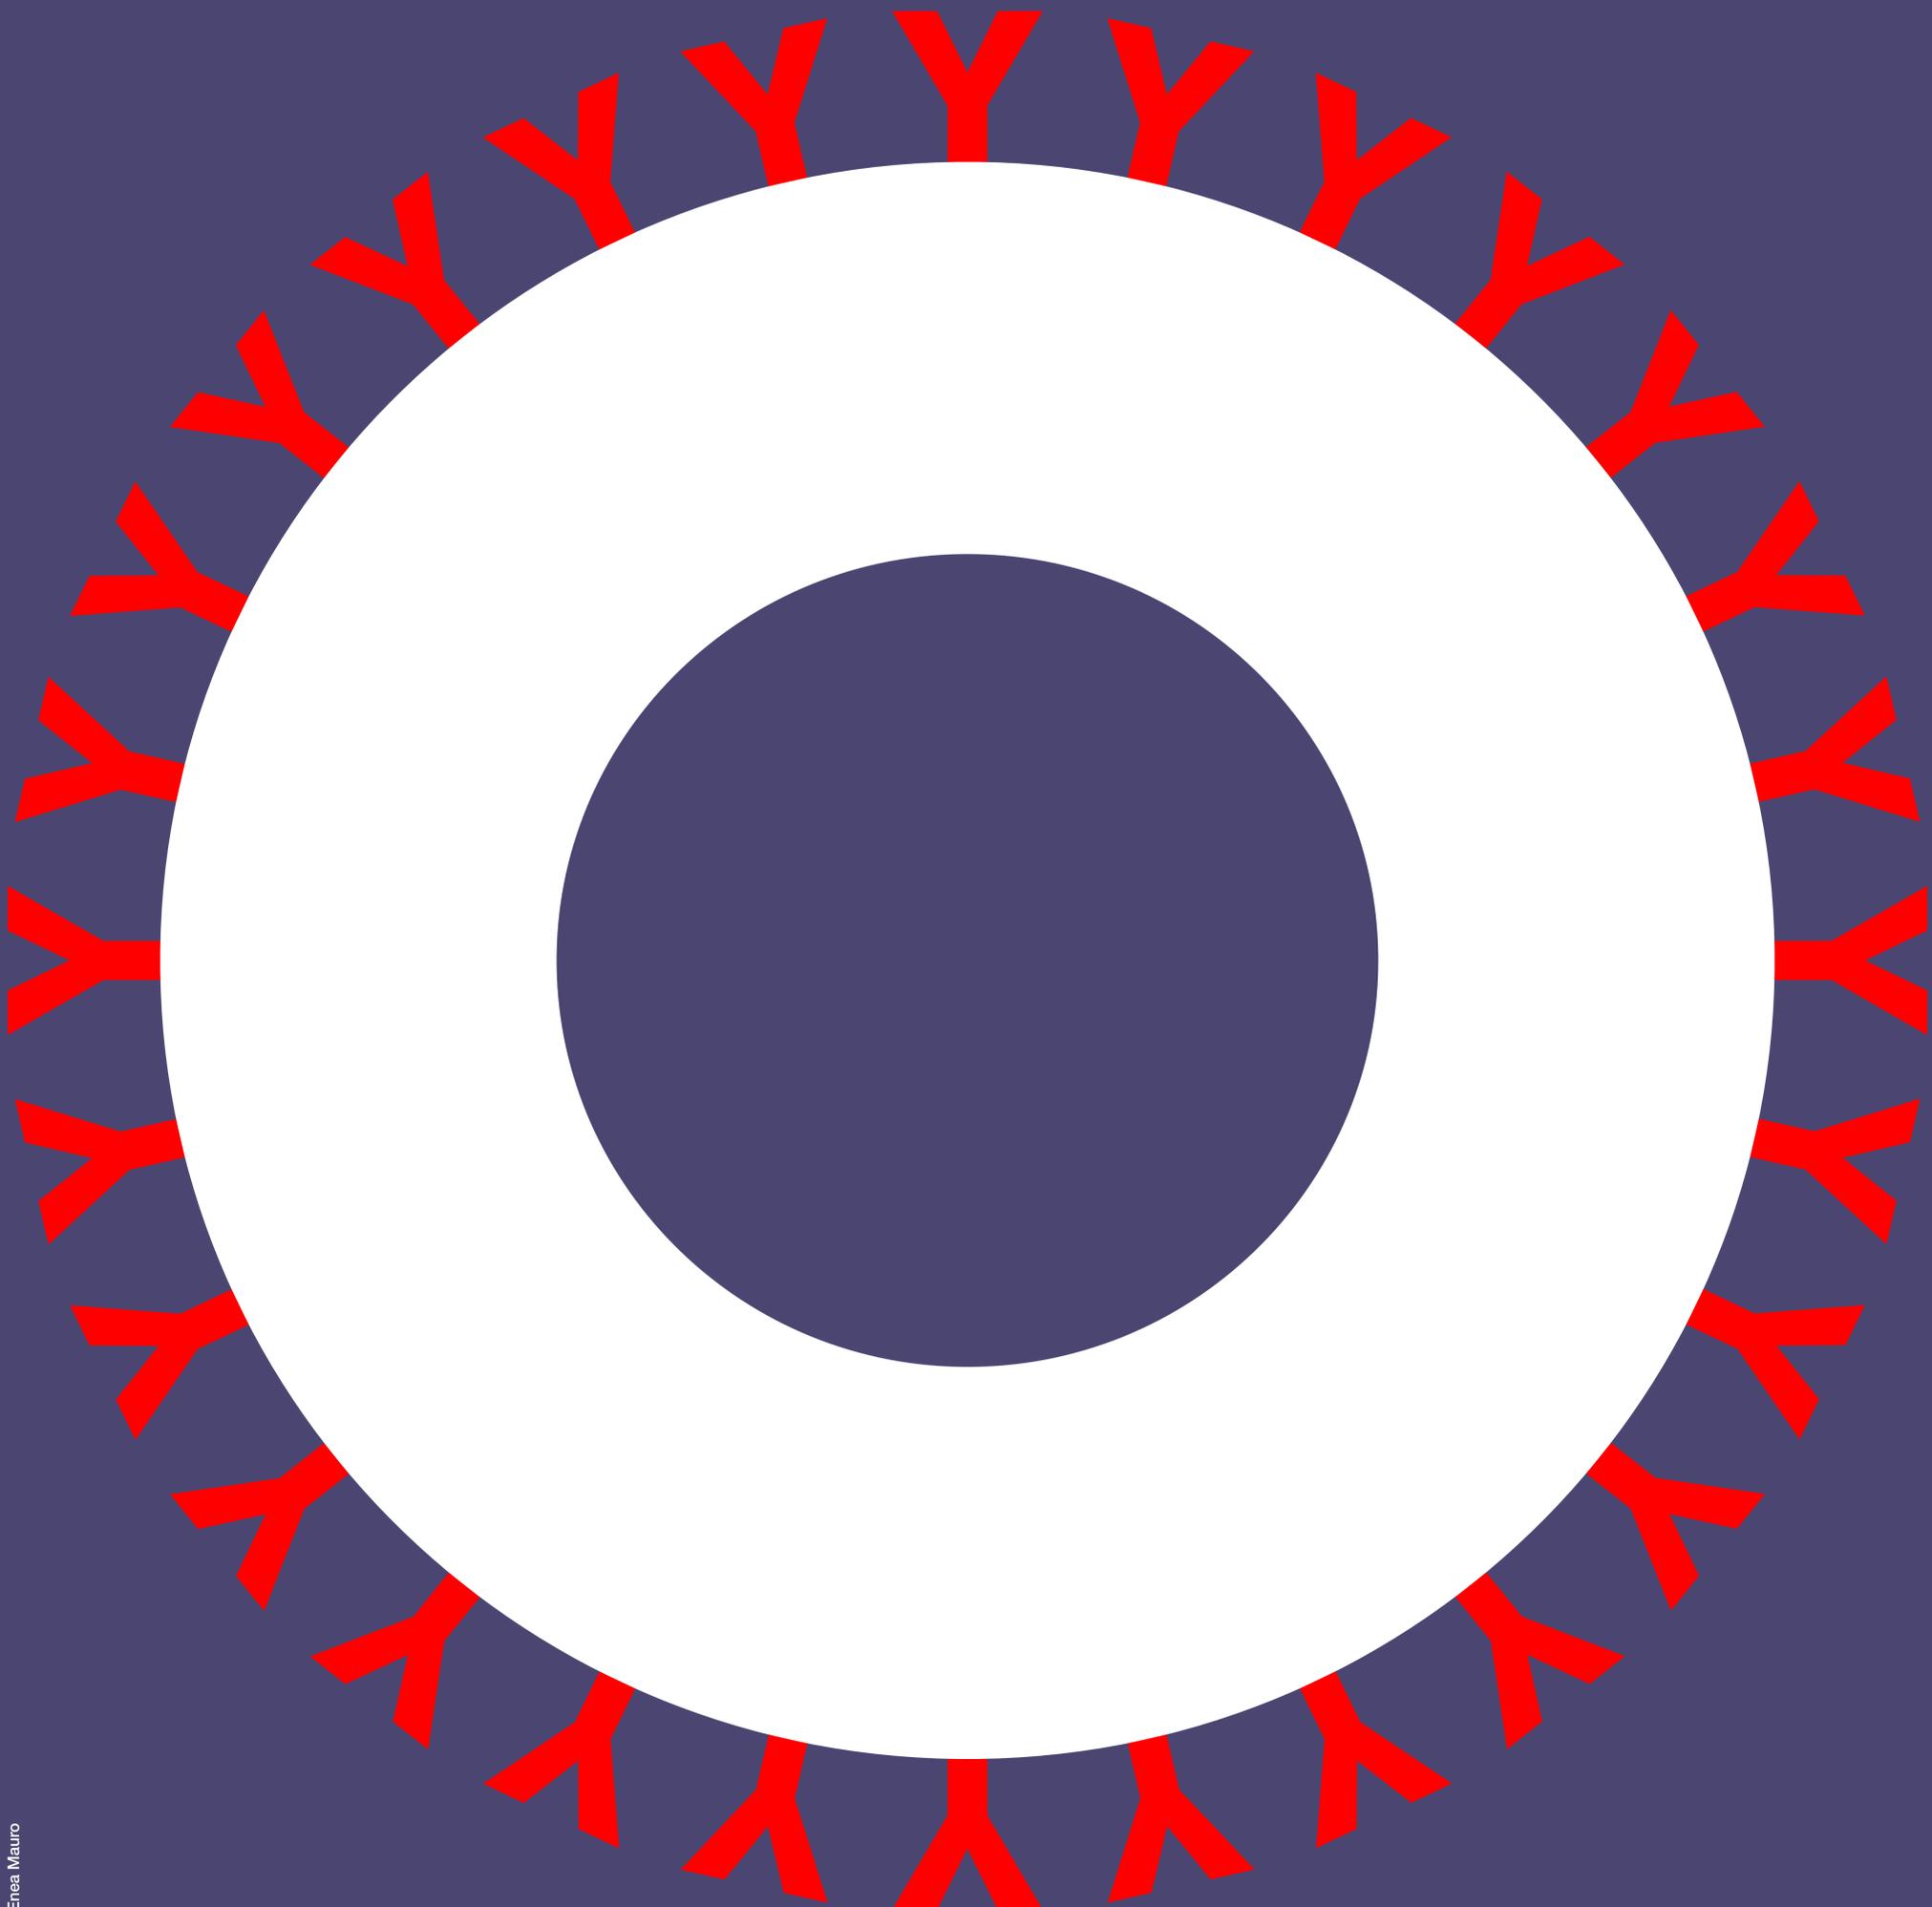

**02**  
Stay  
at home

**03**  
Respect  
distance

**04**  
Help those  
in need

**05**  
Disinfect  
surfaces

**06**  
Wear mask  
and gloves
